Den tidiga modernismen stod i ett intensivt samband med den sköna nya värld som omgav den. Flamländaren Paul van Ostaijen, som dog bara 32 år gammal 1928, är inget undantag: han tog intryck av expressionism och dadaism, av cabaret och teater - hans dikter kan vara satiriska visor i typografiskt experimentell form, stadens brus och rytmer hörs i dem liksom mullret från det krig han avskydde. Översättning och inledning Ronney Henningsson.
